Tuesday 16th June 2020

Good morning Class 1!

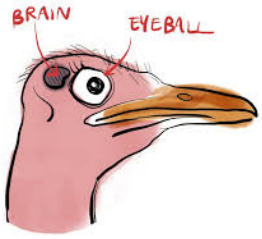
We hope you have had a lovely day yesterday and that you enjoyed your home learning. Thank you to all of you who emailed the toys list to help Mrs Perry.

Today's fun facts:

I really liked yesterday's animal facts, so here are a few more. Did you know...

A tiger's skin is striped like its fur.

An ostrich's eye is bigger than its whole brain.



Wow! I'm glad our eyes aren't bigger than our brains, I don't think we would be able to remember as much information if they were. Do you know any fun animal facts?

As always, we are looking forward to seeing or hearing about what you do.

Below, are some more fun and exciting activities for you to enjoy at home today.

Remember, you can check your answers with an adult when you have finished by scrolling down the page. 😊

Have another lovely day,

Mrs Potter and Miss Starrs.

Warm up your brains this morning by singing along to the number bond song.

https://safeYouTube.net/w/kU6K

How many can you remember?

Subject	Task:
Literacy	Last night, I was playing on my phone and found lots of hilarious pictures. Today, I thought it would be fun to make some predictions by explaining what we think has happened in each picture. Here is my favourite, I have written a sentence explaining what I think has happened. The baby is crying **because** he wants his dinner. I have used the word '<u>because</u>' in my sentence, can you do this too? Here is another example: The squirrel is happy because he found two nuts. I have attached the other funny pictures I found below. Remember, if you find this a bit tricky, you could label what you can see in the picture.

Numeracy

Yesterday, you answered some addition questions to find out more about me.

Today, I wonder if you can figure out some facts about Miss Starrs by solving some subtraction questions.

Remember to draw your tens and ones to help you find the answers.
Like this:

15 - 4 = 11

/o~~oooo~~

Tip: Draw the first number, then cross out the second number like I have. Taking away/subtraction means getting rid of.

Do as many questions as you can.

My dog Georgie's age:

9 - 4 =

My house number:

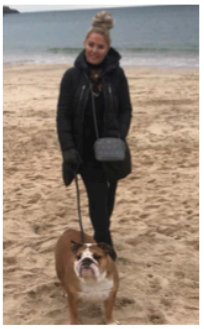
15 - 5 =

My age:

30 - 2 =

My birth month:

12 - 3 =



All About Miss Starrs

Number of years I have worked at Blowers Green:

10 - 3 =

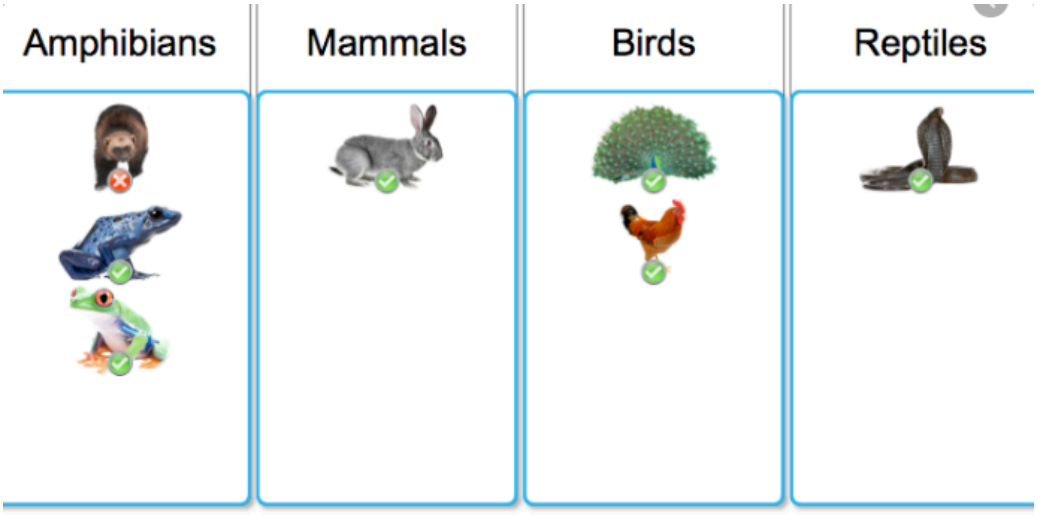
Number of chocolates I have in my fridge right now:

26 - 5 =

If you fancy a challenge, you could create a subtraction 'figure me out' about someone else in your family.

Phonics	Read the sentences below, how many 'ar' words can you find? Write them down. Mark gets in his car. First, he darts off to the park. It is not far. Next mark goes to the market. He fills up his cart. Then, he hands the shopkeeper his card. The market is fun.
Topic: Science	Today, I would like to see what you can remember about animals. I know that all animals belong to different groups. You helped Mrs Macdonald sort the animals in her classroom using these groups a few weeks ago, do you remember? The groups were: • Birds • Mammals • Reptiles • Amphibians • Fish Here are some pictures of my favourite animals. Can you tell me which group they belong in. giraffe clown fish frog puffin dragon

You could present your work like this:



What are your favourite animals? Can you tell me which group the belong to?

Literacy pictures:

Phonics: Phase 2-5 sounds

*even

Maths Answers:

My dog Georgie's age:

9 - 4 = 5

My house number:

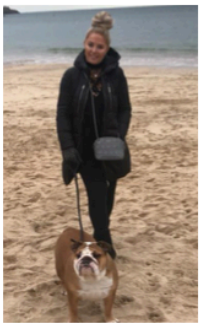
15 - 5 = 10

My age:

30 - 2 = 28

My birth month:

12 - 3 = 9



All About Miss Starrs

Number of years I have worked at Blowers Green:

10 - 3 = 7

Number of chocolates I have in my fridge right now:

26 - 5 = 21

Science answers:

giraffe - mammal

clown fish - fish

frog - amphibian

puffin - bird

dragon - reptile
