Another good morning to you all - thanks for all your hard work and efforts so far. Keep up the good work.

Thought I'd start the morning with a joke:

**Q. What do you call a dinosaur with an extensive vocabulary?**

**A. A thesaurus**

Get it?? Well, I liked it!

So today's work is below. I have included the answers to yesterday's multiplication questions if you wanted to check you were correct.

**Literacy - More spellings today. Task 1**

Copy the following spellings into your exercise books. Write them out at least 5 times each.

Can you use them in your own sentence - bonus points for use of a range of punctuation, a complex sentence or a relative clause.

You could also use an online dictionary (<https://www.dictionary.com/>) or a dictionary of your own and write the definitions (meanings of the words) in your books also.

Today's Spellings: Words that have the 'shul' sound but use spelling pattern 'cial'.

**official    special    artificial    social    racial    crucial    facial**  
**beneficial    superficial**

## Task 2 - Order the events

Read the short paragraphs and then order the events. (Answers tomorrow!!) You may want to copy the order of events into your blue books. Remember to keep practising your handwriting.

### Number the Events

Captain Finnigan was a pirate; a very bad pirate. Relentlessly, he searched for treasure to pilfer. One day, through his telescope, he spied a splendid looking ship on the horizon. 'Could it be carrying treasure?' he wondered. There was only one way to find out. He ordered his crew to man the rigging and they set off in pursuit. With the wind in their sails, they made good speed and were soon bearing down upon their prey. Captain Finnigan ordered the men to hoist the Jolly Roger as a sign that they were about to attack; there would be no mercy here. The pirates drew alongside the ship and Captain Finnigan bellowed across, "Give up ye treasure and I might show ya some mercy!" This was a lie of course, as he was a very bad pirate after all. There was no reply. In fact, there was no one there. The ship looked abandoned. Captain Finnigan smiled smugly. Taking treasure from this boat would be a piece of cake.

- Number the following events from 1 to 6 to show the order that they happened in the text.

There would be no mercy here.

The ship looked abandoned.

'Could it be carrying treasure?' he wondered.

This was a lie of course, as he was a very bad pirate after all.

Relentlessly, he searched for treasure to pilfer.

With the wind in their sails, they made good speed.

He used a rope to swing skilfully across to the empty vessel (an action he had performed many times before). His sword was grasped within his hand, as always, in readiness to fight. However, no one was there. The captain was perplexed. Who was sailing the ship? Where were the crew? An uneasy feeling crept over him. He decided to go below deck to investigate further. He walked cautiously down the steps and into the eerie darkness below. The captain perceived a soft yellow glow in front of him. Treasure! Greedily, he rushed towards it, only to be scooped quite unexpectedly into the air. He was now tangled awkwardly in a net that was being suspended from the ceiling. He couldn't move – he was trapped! Silently, he cursed his own foolishness.

### Maths Task 1.

Apply known multiplication / division facts.

Can you use your times table knowledge and your understanding of inverse operations to solve these missing number questions:

$$\underline{\quad} \times 12 = 96$$

$$\underline{\quad} \div 3 = 7$$

$$\underline{\quad} \times 8 = 720$$

$$\underline{\quad} \div 12 = 120$$

$$\underline{\quad} \times 6 = 3600$$

$$\underline{\quad} \div 40 = 70$$

$$\underline{\quad} \times 12 = 360$$

$$\underline{\quad} \div 8 = 500$$

$$\underline{\quad} \times 11 = 1320$$

$$\underline{\quad} \div 60 = 90$$

$$\underline{\quad} \times 9 = 6,300$$

$$\underline{\quad} \div 800 = 8$$

Don't forget to be having regular goes on Times Table Rockstars to keep your mind active.
