### Challenge

Tomorrow, 27<sup>th</sup> June is Helen Keller Day. Helen Keller was blind and deaf. Being deaf means, you can't hear, and being blind means,

you can't see. It must be very strange not having 2 of your senses to help you learn. Try closing your eyes, and covering your ears, how does it feel? She was the first deaf-blind person to get a degree and she became an author. Do you know what an author is? Helen Keller never gave up! She learned to communicate through sign language.
