

Wednesday 24th June

E-mail: reception@blowers.dudley.sch.uk

Good morning,

Help I think the evil pea came to visit, I'm not sure but I found pea footprints and a pepper was trapped. Did anything happen in your house? If it did write it down and send me a picture.

Let's get moving

Molly loves to dance to this superhero song. It is our holiday song. Can you dance along? You will be out of breath after. Put your hand and heart. Is it beating fast? That is because you are doing exercise and that makes your heart work faster to pump the blood around your body. <https://safeYouTube.net/w/vxAL>

In this story Supertato is trying to get the other vegetables to do some exercise. Why do we need to do exercise?

<https://safeYouTube.net/w/eSAL>

In 'Supertato Run Veggies Run' the vegetables are having a sports day to keep fit. Today we are going to set up our own vegetable race. Can you find 4 vegetables?

We are going to discover which one rolls the best.

Have a look and assemble your vegetables! What different kinds have you got?

Who is going to compete in the race? Make your own racetrack!

This could be a big one outside or a mini race for peas on the table. Have you got something for a finish line? Take turns to roll each of your vegetables or roll together with a grown up or someone else in your house. Who is the winner? Which was the best roller? Did they all roll? Why not?

Phonics

This lesson is for you, if you know all your sounds and need to practice blending for reading. <https://safeYouTube.net/w/84AL>

This lesson is to help you learn all your phase 3 sounds. <https://safeYouTube.net/w/TMAL>

Remember you only need to choose one.

Number

Can you find the missing numbers?

$$5 + \text{ } = 10$$

$$10 = 2 + \text{ }$$

$$\text{ } + 3 = 10$$

$$10 = \text{ } + 8$$

$$7 + \text{ } = 10$$

$$\text{ } + 4 = 10$$

$$10 + \text{ } = 10$$

The evil pea has stolen the numbers. Can you be a superhero to work out the missing numbers.

If you find it hard you can use your pea playdough counters that you used on Monday.

Investigate.

Do you know how else potatoes are super? Well if you plant a sprout potato it grows more potatoes! This takes 100 days.

First you need to pick a potato that is sprouting. Have a look in your vegetable rack. Plant your potato where you choose, in a big pot or in the garden. If you don't have soil you can still watch the potato grow by putting it in a jam jar.

Mark off the days on your 100 square day by day. When you get to 100 see how many potatoes you have.

Did you know if you cut the top off a carrot and put it in a sauce of water you make its shoots grow. Molly thinks it looks a like it is growing hair.
