

Good morning Class 3! How is it Thursday again already? Did you have a nice day yesterday?

On the evening, George and Harry enjoyed building a bug hotel and then we went on a nice walk. We spotted lots of flowers and heard birds singing high up in the trees! We even saw a cheeky squirrel running up a tree with something in his mouth! I wonder what it was...any ideas?

Let's begin our day with a song and a bit of exercise together...

Did you enjoy that?

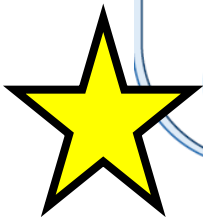

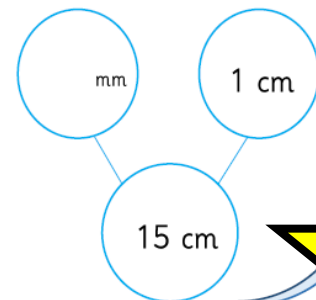

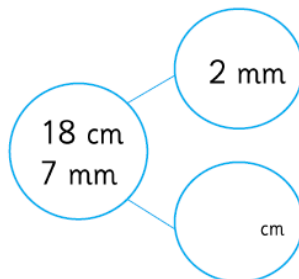

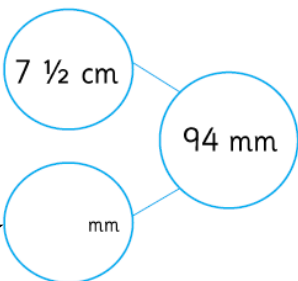

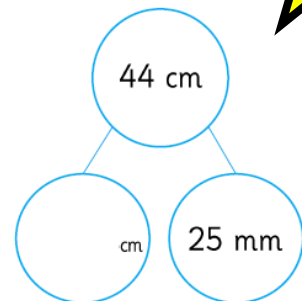

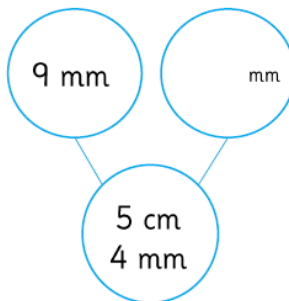

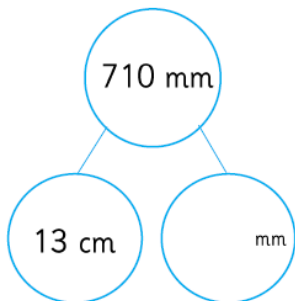

Today, we are going to be practising equivalent lengths.

Everyone can do the first one but if you are feeling like a maths magician...have a go at the second set too!

Complete the part whole models.

Complete the part whole models.

Now try the challenge!

Use Esin's clues to work out the measurement she is thinking of.

Clue 1: My measurement has 3 centimetres and some mm.

Clue 2: In mm, the digit sum is 7.

What is the measurement in millimeters?

When partitioning in cm and mm, you can only partition 67 mm into 6 cm and 7 mm.

True or False?
Explain your answer.

Great work! Now we are on to English

Now, how amazing is this image?

1. Have you ever been on a plane? If so, can you describe what it feels like?
2. If you have not, can you use your imagination to describe what it might be like?
3. What other modes of transport have you been on? Which was your favourite/least favourite?
4. Is there a mode of transport you would like to experience in the future?
5. How do you think the world was different before flying was invented?
6. How do you think transport will change in the future?

Sick sentences!

These sentences are 'sick' and need help to get better. Can you help? Quick, before I fall to sleep!

The plane went through the sky. There were clouds below.
The sun came up. The captain pushed a button.

Now, we have geography.

Yesterday, you did some research for me on a continent. Today, you are going to turn your research into a fact file. You can present your work however you choose; you might even use a computer!

Email me your work to earn some more Dojos! Quick though...we only have a few days of Y3 left!

Finally, we are going to have some calm time whilst listening to a piece of music by one of our class musicians.

<https://safeYouTube.net/w/4avM>

Whilst listening and watching, how many different instruments can you name?

How does the music make you feel?

Let's finish our day with some more of our audio book. Listen for around 20 minutes. Enjoy!

Have a fantastic day Class 3! Don't forget to practise all of your challenges today and get some fresh air. Any questions... email our Y3 email!

Mrs Martin 😊
