Or even better...can you create a table and compare heights for members of your family?

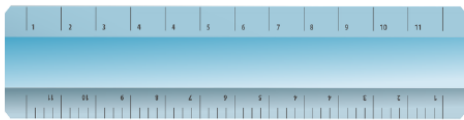

Have a go at these challenges...

True or False?

cm lengths are greater than mm lengths.

m lengths are smaller than cm lengths.

mm lengths are greater than m lengths.

Sort the lengths into the table.

10 cm 12 mm

112 m

1120 mm

Are any of the lengths equivalent?

For English today, we are going to complete the story...

She had been standing there for hours, surrounded by ice.

As the sun peeped its head over the distant mountains on the horizon, an orange and yellow hue filled the sky. The warmth of

the sun was a gesture of kindness to her frozen hands, which she clasped

together in front of her trembling body. It was then that she heard it... Crack!
It was as if the world in front of her was breaking in two...

What happens next? Complete the story in an imaginative, interesting way.

Try to include –

- ★ similes
- ★ expanded noun phrases
- ★ personification

Email me your story to earn 5 Dojos!

Finally, today we have a bit of P.E mixed with Art!

If we had been in school, we would have had sports day. Unfortunately, we couldn't. So today, I would like you to pick 2 new races that you would like to do in sports day. Write down their name with a short explanation so I understand the race.

I will share them with Mr Thompson ready for next year.

Once you have picked your races, your next job is to design a medal for them.

Make them fun and eye catching!

You could even have a go at making one!

Super work again today Year 3! Can you believe we are almost at the end of the school year?

What has been your favourite activity this week? Well done for trying so hard! I am so proud of you all. Don't forget to send me an email with any of your work on so that I can add your Dojos!

I hope that you have a fantastic weekend! Speak to you on Monday!

Stay Safe!

Mrs Martin
