

Hi there! How are you today?

I loved seeing the shapes you made out of the things you found in your garden or house yesterday.

I hope you enjoy your learning and have a lovely day today.

Let's get to it!

A LITTLE  
PROGRESS  
EACH DAY  
ADDS UP TO  
BIG RESULTS.

### First thing today, is maths!

Yesterday, we used our maths knowledge to make 2D and 3D shapes. Today, we are going to help the shape inspector out. Let's see how we can help!

My boss has asked me to inspect a selection of shapes. Once I inspect a shape, I have to fill out the table of it's properties.

Can you fill this in for me?

Thank you guys!

**Vertice**-where two sides of a shape meet ( a corner)

Fill out the table below.

You might be able to find something in your house to help you.

There is a super challenge below too.

Happy shape inspecting!

Shape inspection form

Picture	Shape name	Picture of the item I found of that shape in my house	Vertices	Sides
				
				
				
				
				
				

## Super challenge

Amir says:

My shape has half the number of vertices as an octagon.

What shape could he have?

2 dojos for each answer you email me!

## Our next lesson is phonics

I was looking through old photos and letters at the weekend and found this post card my friend sent to me when she was on holiday a few years ago.

I noticed a lot of split digraphs..... how many can you find?

Email me to tell me for 2 dojos.

Dear .

I am having a really super holiday in Greece! The huge hotel we are staying in has a pool with a flume! When I'm not in the pool, I like to race my brother to the beach and eat ice cream cones in the shade.

In the evening, we sit around the fire and play games. The food here is yummy. Yesterday, I had chocolate cake and apple pie for pudding!

Tomorrow, we are going on a blue boat to an island called Crete. I hope we will see some stone ruins.

I can't wait to see you when I get home.

## Now, on to writing...

Today, we are going to be writing book reviews!

I have been reading a lot recently and thinking about the books I might read in future. To decide what books to read, I ask my friends and family for recommendations and read book reviews online.

A book review tells someone what the book is about and what you liked or disliked about it.

You are going to write a review of a book you read recently. This might be a book from school, your favourite book, or a book you read over half term.

Try and answer some of these questions in your review.

You can present your writing however you like, but it must be in your best Kinetic Letters so people can read it easily. Below is an example of how you might set out your book review, but get creative!

5 dojos for every fab book review I see!

Who is the author?

What is the title?

What is the story about?

Who were the main characters?

What did you like about the book? What did you dislike?

What was your favourite part of the book?

A book review by: \_\_\_\_\_

Author: \_\_\_\_\_

Title: \_\_\_\_\_

What was the story about?

Who were the characters?

What did you like about the book?

Draw your favourite picture from the book.

Your rating: \_\_\_ / 10

### Our last lesson is geography

We are going to be doing some investigating as you are all such super geographers!

Geography is not just about the outside world, it is also about the things in our own homes. So, today we are going to be having a little look in our kitchens.

The other day, when I was making a cake I was reading the back of the flour packet and noticed that it was made in UK. So it got me thinking, where does the food in my kitchen come from?

I decided to do a little bit of investigating!

Have a look at a few of the things I found in my kitchen below...

150ml e  
Produced in **Malaysia** for  
Tesco Stores Ltd., Welwyn  
Garden City AL7 1GA, U.K.  
© Tesco 2018. SC213773

  
Product of **Italy**  
Specially packed for  
**East End Foods plc**  
East End House, Kennick Way  
West Bromwich, B71 4EA, UK  
[www.eastendfoods.co.uk](http://www.eastendfoods.co.uk)

Produced in **Greece**  
for Tesco Stores Ltd.,  
Welwyn Garden City  
AL7 1GA, U.K. &  
Tesco Ireland Ltd.,  
Gresham House,  
Marn Road, Dun Laoghaire,  
Co. Dublin, © Tesco 2019.  
SC213579

It seems that the foods in my kitchen come from many different places around the world.

Now it's your turn...

Ask your adult if you can look at the food in your kitchen cupboards.

Have a look on the back of the packets of food. Can you find out where 5 foods come from?

I am so interested to see what is in your kitchen, and where the food comes from. To show me, can you draw a picture of 5 of the items you look at, and write the country it is from. I wonder how many different places we can find.

Please email me a picture of your work, I will even give you **3 dojos!**

### Challenge

What food is made furthest away from you?

What food is made closest to you?

As a geographer, how would you go about finding this out?

What a great day of learning! Well done Year 2!

I absolutely love seeing all the pictures you have been sending me of your work, it's fantastic to see you doing so much fantastic learning at home.

Remember, if you have any problems you can email me on our year 2 email address. Remember to work on your challenges, get a bit of fresh air and read today. I am going to do a yoga video on YouTube to relax today. What exercise will you choose?

Have a lovely day!

Miss Pylypiak-Clancy

## Maths answers

Name		Sides	Vertices
triangle		3	3
circle		1	0
square		4	4
rectangle		4	4
pentagon		5	5
hexagon		6	6
oval		1	0
