

Thursday 25<sup>th</sup> June 2020

Good morning Class !!

We hope you enjoyed yesterday's home learning. We certainly enjoyed reading all of your emails and seeing your amazing work. We have some very caring children in Year 1...your wishes were very thoughtful!

I might have to send some of your town plans to the planning office, I would love to visit them all.

Here are some fun facts about your home town:

There is a 42-year-old Orangutan who lives in Dudley Zoo. His name is Benji.

Dudley castle was built in 1070. That is 950 years ago.

As always, we are looking forward to seeing or hearing about what you do. Below, are some more fun and exciting activities for you to enjoy at home today.

Have another lovely day,

Mrs Potter and Miss Starrs.

Start the day by learning a little bit more about Dudley's past.

Subject

Task:

Literacy

Did you know, that castles have lots of different parts.

### Parts of a Castle

If I had a castle, I would have one really tall tower, like Rapunzel.

I would also have a drawbridge at the front and the back.

If you had a castle, what would it look like? Draw and label a picture to show me.

Here is Mrs Martin's design:

## Numeracy

Today, we are going to investigate weight.

Weight means how heavy something is.

When we talk about weight, we use words such as, heavier, lighter, and balanced.

Balanced means the items are the same weight.

balanced

lighter

heavier

Your first job is to make a set of balancing scales.

There are lots of ways to do this, so choose the design that works best for you.

Now, what I would like you to do, is choose one item, it could be a can of food, a banana, or even a shoe. This is your measuring item. Put in on one side of your scales.

Right, now you need to find items around your home and weigh them to see if they are heavier or lighter than your object.

Tell us what you find.

Have fun! 😊

## Phonics

Choose a game for your phase and practise your phonics skills on:

<https://new.phonicsplay.co.uk/>

If you want to, try the reading task attached below. Use your phonics to help you read any words you are unsure of. Then answer as many questions as you can.

## Topic: Art

Did you know that last Saturday, the 20<sup>th</sup> June was Summer Solstice? This is the day where the Earth gets the most amount of sunshine. It also marks the first day of summer.

Summer is one of the 4 seasons, can you remember the other 3?

Today, we would like you think about the season of summer and create a summer picture using objects you find outside.

You could create a summer flower, a big sunshine, or even a pair of sunglasses.

Here are a few ideas to help you:

I asked Mrs MacDonald to do this, here is her picture. Can you guess what it is?

A girl in her summer clothes.
