

If you have good thoughts. . . they will shine out of your face like sunbeams and you will always look lovely.

Hello again Year 2!

I hope you had a lovely weekend. How did you get on with the weekend bingo?

Do you recognise which books these quotes are from?

The quote on the left is from a book we read in class! Can you guess it?

"We are the music makers,

and we are the dreamers of dreams." - Roald Dahl

First, let's start the way we start every Monday ...PE!

Are you ready to sweat?

Join in at 9am or pick a PE session with Joe here.

Our next lesson is Maths

Hand sanitiser is a gel that you put on your hands to make sure they are clean. At the moment, people are buying a lot more hand sanitiser than usual!

Did you know?

The best way to wash your hands, is with soap and water!
The action of rubbing your hands together with water helps
to get rid of anything you don't want on them...especially
germs!

Use your knowledge of addition to work out my hand
sanitiser recipe. Make sure your final recipe includes the
units of measure (g, kg, ml, l).
Remember, you can draw your tens and ones to help you.

Miss Pylypiak-Clancy hand sanitiser recipe

7g + 12 g of anti-virus powder

22ml + 9 ml of hand cleaning gel

50 ml + 12 ml clear gel

21ml + 8ml. of water

15 g + 55g of super virus buster

Health and safety warning: do not try making this at home (it won't work)

Send me your final recipe. If it is right, I will give you 3
dojos. There is a super challenge below to try too!

Super challenge

What is the total weight all the products I have measured in grams in my recipe?

Send me your answer, and a picture of your workings to get 2 dojos.

Our next lesson, is writing

Now, you are going to create an advert for your own hand sanitiser.

Do you remember when you made an advert for your shop?
You used lots of fantastic adjectives to tell me why your shop was the best.

Today, try to use these writing techniques to make a fantastic advert for hand sanitiser.

You need to tell me why your hand sanitiser is the best. Does it make your hands super clean? Smell nice? Come in a cool bottle? How will your sanitiser stand out?

- Adjectives, e.g. marvellous
- Expanded noun phrases, e.g. My amazing, super, hand sanitiser
- Alliteration, e.g. super sanitiser

Get creative!

Make sure your advert is colourful and interesting to look at.
You could even use the computer if you would like to.

Any adverts I receive, will get one dojo for each writing technique I can see you have used and one for presentation.
Use adjectives, an expanded noun phrase, alliteration and make your advert attractive and you could get 4 dojos!

Next up, I thought we could do some drawing. Drawing helps me to relax. Do you feel relaxed when drawing? I thought you might like to try this hand washing friends drawing. It's a cute way to tell people how to keep their hands clean.

Well done, that is all of our lessons completed for today!

I hope you enjoy the rest of your day.
Make sure to take some time to relax, read and get some fresh air. Remember you can always email me on the Year 2 email address if you need anything.

Miss Pylypiak-Clancy 😊
