

Tuesday - Week 2

Happy Friday (or should I say Frigg's day?) year 5! Here's a fact I learned today:

At over 2000 kilometres long, The Great Barrier Reef is the largest living structure on Earth!

This channel is where the live lessons will be uploaded.

I look forward to hearing the nation's story at 3.30. I hope some of your sentences are chosen!

Maths

Today we will practise a range of questions. Choose a difficulty and complete the calculations.

Don't forget to log into Times Table Rocks Stars for at least 10 minutes of practice.

Computing

In class you have used Scratch to create algorithms (instructions) for your own programs. I would like you to log into scratch a create something. Remember you can share this with myself and the rest of the class through scratch. If you have forgotten your scratch log in, you can create another one using your school email address. You can log into scratch on this website

<https://scratch.mit.edu/ideas> or download the free app if you are using a tablet or phone.

If you are unsure what to create, click on the **ideas** tab at the top and follow one of the tutorials. You could make a **chase game**. →
