

Thursday

你好 (ni hao - hello)! Keep up the good work Class 5. Here are today's tasks:

Maths

Open the work titled 'Maths Year 5 Thursday Week 1'.

For maths today I would like you complete one sheet on adding decimals. You have used sheets similar to these before, you can select the difficulty which you are comfortable with. **Remember, when adding decimals, be really careful of the place value.** Work can be completed in your blue homework book. The answers are on the final page so you can mark your work.

English

Watch <https://www.youtube.com/watch?v=NimvfRfxdkc>.

Today you are going to write a short story based on that video. Think about all the different techniques you could use and try to use a range.

At a minimum you need to include, powerful adjectives, similes, metaphors and a range of sentence types. Try to include one example of speech and challenge yourself to include personification. **Remember to proof read your writing and punctuate it accurately.**

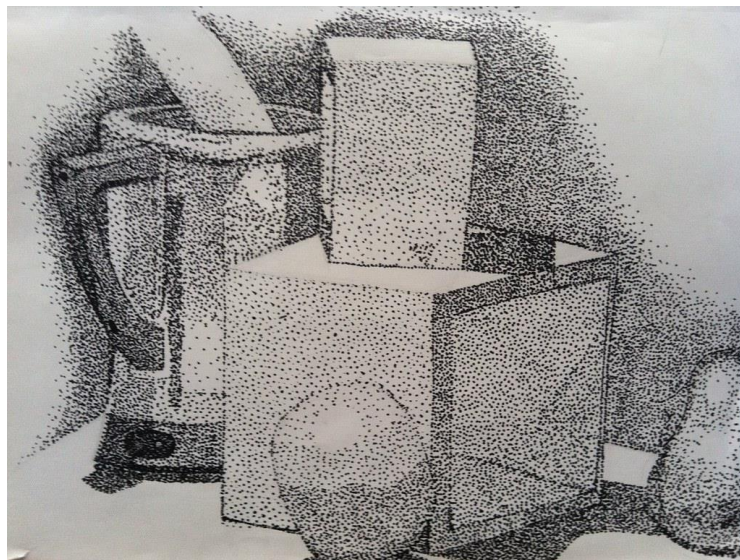

I would love to read some of these narratives. You can take a photograph of your writing and email me a copy to read if you like (yearfive@blowers.dudley.sch.uk).

Remember to read at some point today.

ART

Arrange some items and prepare to draw them accurately. Use the skills you practised yesterday to create tone. Remember to sketch out the shapes first lightly then gradually add tone using either shading, hatching, stippling (or a mixture of all 3). If you would like to show me your masterpieces you can always email me a photograph. Here are some example of 'still life' pictures using stippling and hatching.

PE (optional)

Everyday Joe Wicks will be uploading a 30 minute PE session. You can watch the first video here: <https://www.youtube.com/watch?v=RzOgo1pTda8>. He will be streaming these live at 9am every morning so if you would like to start the day with some PE you can do this everyday!
