

Good Morning Year 3.

How are you all? Can you believe that we are now at the end of another half term. Another half term of me missing your happy, smiley faces. But, I know that you are all staying home and staying safe, so that makes me a little happier!

As it's Friday let's start the day with a dance. Find your favourite video on just dance to dance along to. I am going to do this one...George picked it today!

[https://www.youtube.com/watch?v=oe\\_HDfmdmnaM](https://www.youtube.com/watch?v=oe_HDfmdmnaM)

Now we are ready for some learning. First up, we have maths.

You have done some fantastic work on money this week and I have loved seeing everything that you have been doing. Remember to keep practising, even when we aren't focusing on it. Money is used all of the time, so it is really important that we are confident when using it.

To begin with, I would like you to practise your times tables on TTRockstars.

Remember... we need to catch up with Class 4!

Get earning those points, you can do it Class 3!

After all your hard work in maths this week, I would like you to now try to solve some problems. They will help you when you go into a shop to buy things, so try really hard.

Choose a chilli challenge for your questions today.

1. Janet buys a pen for 14p and a rubber for 12p. How much does she spend?

2. Alex gives his friend 15p. He is left with 10p. How much did he have to begin with?

3. Hamed buys an apple for 16p. He pays with a 20p coin. How much change does he receive?

4. Tomas is given 20p by a friend. He had 13p already. How much does he have now?

5. Alma has three 10p coins. She buys a bottle of water for 18p. How much money will she have left?

6. Nura has four coins. She has 12p. What coins must she have?

7. Ian spends 23p on a packet of crisps. He gets 17p change. How much did he give to the shopkeeper?

1. Janet buys a pen for 34p and a rubber for 22p. How much does she spend?

2. Alex gives his friend 35p. He is left with 20p. How much did he have to begin with?

3. Hamed buys some apples for 76p. He pays with a £1 coin. How much change does he receive?

4. Tomas is given 45p by a friend. He had 38p already. How much does he have now?

5. Alma has four 20p coins. She buys a bottle of water for 58p. How much money will she have left?

6. Nura has four coins. She has 36p. What coins must she have?

7. Ian spends 23p on a packet of crisps and 41p on a drink. He gets 36p change. He gives the shopkeeper 2 coins. What were the coins?

1. Janet buys 2 pens for 34p each and a rubber for 22p. How much does she spend?

2. Alex gives one friend 35p and the other 45p. He is left with 40p. How much did he have to begin with?

3. Hamed buys some apples for 76p and pears for 49p. He pays with a £2 coin. How much change does he receive?

4. Tomas is given 65p by a friend. He now has £1.08. How much did he have before his friend gave him some money?

5. Alma has three 50p coins. She buys two bottles of water for 62p each. How much money will she have left?

6. Nura has four coins. She has 77p. What coins must she have?

7. Ian spends 43p on a packet of crisps and £1.08 on a drink. He gets 19p change. He gives the shopkeeper 3 coins. What were the coins?

Our next lesson is English.

This week you have been practising your poem. Today, I would like you to answer the questions about the poem

### **The Night Will Never Stay**

The night will never stay,  
The night will still go by,  
Though with a million stars  
You pin it to the sky:  
Though you bind it with the blowing wind  
And buckle it with the moon,  
The night will slip away  
Like sorrow or a tune.

Eleanor Farjeon

1. Can you find two rhyming words?
2. Why will the night slip away?
3. What does bind mean?
4. What time of day does the poem refer to?
5. How many stars are in the sky?

Our final lesson is PSHE.

All of this week, we have been focussing on **KINDNESS**, as part of Mental Health Week.

Although today is Friday, it doesn't mean we just stop thinking about it now.

So your challenge is to create a "Kindness Jar." Inside, you put in lots of different ideas of things that you, or someone in your house could do to be kind. It could be things like...

Give mom a hug.

Go for a walk and pick up the litter along the way.

Share my chocolate with my family.

Help my dad to clean the car.

Then each day, over half term, you pick out a kind thing to do and complete it, knowing that you are doing something kind. 😊

Don't forget to share some pictures of your ideas with me too. I am going to be making one with George and Harry, so I need some good ideas.

## 20 ACTS OF KINDNESS for siblings

Read them a story  
Help tidy their room  
Let them go first  
Make their bed  
Say please and thank you  
Play their favorite game  
Help with one of their chores  
Help with their homework  
Put their toys away  
Get their coat  
Do a jigsaw together  
Tell each other jokes  
Hug each other  
Listen to your sibling  
Make a snack for the other  
Be patient with them  
Say thank you  
Give them a compliment  
Let them choose what to watch on TV  
Be kinder than you need to be

## Maths answers

### Money Word Problems Answers

1. Janet buys a pen for 14p and a rubber for 12p. How much does she spend?

**26p**

2. Alex gives his friend 15p. He is left with 10p. How much did he have to begin with?

**25p**

3. Hamed buys an apple for 16p. He pays with a 20p coin. How much change does he receive?

**4p**

4. Tomas is given 20p by a friend. He had 13p already. How much does he have now?

**33p**

5. Alma has three 10p coins. She buys a bottle of water for 18p. How much money will she have left?

**12p**

6. Nura has four coins. She has 12p. What coins must she have?

**5p, 5p, 1p, 1p**

7. Ian spends 23p on a packet of crisps. He gets 17p change. How much did he give to the shopkeeper?

**40p**
