

Hello again Year 2!

It's Friday again, and another week has flown by! I cannot believe how quickly the days are going.

What has been your favourite lesson this week? I have loved seeing all your work on kindness. I hope you enjoy your day!

I will  
persist  
until  
I succeed

I was feeling a bit tired and down this morning.

So, I am going to start my day with a quick boogie to make myself feel better... it nearly always works!

This is one of my favourites, I hope you enjoy!

### Our first lesson today, is maths

Warm up your maths brains by telling someone in your household your number bonds to 20. You could also play 'SPLAT!' if you would like!

Get set...GO!

What a week we have had in your shop! You have been fantastic shopkeepers.

Can you remember what maths money skills we have practised this week?

That's right... recognising coins, adding prices and finding change. Woah... what a busy week!

It is time to open our shops up again...

Today, we are going to help customers to find the difference between prices.

Remember, we find the difference by subtracting. For example...

Excuse me, can you help me?

I want to buy a present for my son, but I can't decide.

What is the difference in price between the book and the notepad?

Thanks!

Looking at my shop, I can see the teddy is 20p, and the notepad is 9p.

Then, I make my subtraction number sentence to find the difference.

20p

-

9p

=

11p

I can tell the customer, the difference between the teddy and the notebook is 11p.

So, the notebook is 11p cheaper than the teddy.

Remember, biggest number first when subtracting! Plus, don't forget the pence (p)

You could use a fair swap to help you subtract.

5 customers have come into your shop. Each customer chooses two items.

They ask you to find the difference in price of the two items.

For each customer, write the subtraction number sentence, like I did.

There is a challenge from another tricky customer below. Off you go shopkeepers!

### Super Challenge

Whitney

I have 57 p.

I have 2 silver coins  
and 1 bronze coin.

Mo

What could Mo have?

Work out the difference between the amounts.

## Our next lesson is spelling, punctuation and grammar

Someone sent this note to my shop.

hello miss pylpyiak-clancy i relly like your shop. wot time does it open  
yesterday i whent to your lovely amazin shop and it was closed

I can't make out what it says because of all the mistakes.

Can you email me a picture of the corrected sentences so that I can read it?

Keep an eye out for... for missing capital letters, for proper nouns and at the beginning of a sentence, punctuation

(! ? .) and spelling of tricky words and Kite Challenge words..

Thank you, Year 2! What would I do without you!? 4 dojos for anyone who can help me!

### Next up...writing!

In this lesson, we are going to practise using commas in a list.

A comma can be used to separate nouns within a list.

Can you read this sentence out loud?

In my dip box there are sweets, pencils, lollipops and rubbers.

Now read this sentence...

In my dip box there are sweets pencils lollipops and rubbers.

My sentence without commas sounds funny, doesn't it?!

Your task today, is to use commas to list the items in three rooms in your house.

Here is one of my sentences...

In the living room there is a sofa, television, and lamp.

If you would like to stretch yourself, you could use adjectives to make your writing more interesting, like this...

In the warm living room, there is a soft sofa, shiny television and massive, slate-grey lamp.

Can you spot the alliteration in my sentence?

If you find this tricky, begin by writing all of your items in a numbered list first and then try to add the commas.

Send me a picture of your sentences for 3 dojos.

Our last lesson is PE. What a lovely way to end our week!

Join in with Joe Wicks here!

## Aliens have come to Earth!

Over **Mental Health Awareness** week, we have thought about the importance of **KINDNESS**, how we are kind to others, and how others are kind to us.

From what you have learnt, what one thing would you tell an alien who knows nothing about kindness? Email me your answer so I can pass the message on to the aliens!

I think I would tell the alien to always be kind because being kind is always possible and will make other people happy.

## A weekend challenge

Let's keep on being kind!

Over the next week, have a go at my kindness bingo. Cross off the kind act when you have done it. I will be too!

I am going to print it and put it on my fridge, but you can just get an adult to copy the ideas down.

Help an adult with a household chore	Ask someone to choose a story for you to read to them	Give someone a compliment
Give someone a hug	Make a card for someone	Share your favourite toy or game with a sibling
Ask how you can help an adult out	Tidy up	Make a poster for your window that will spread happiness

A Dojo for each one you complete over the half term!

Let's continue to spread kindness Year 2!

# WELL DONE!

Well done for another week of great learning! What are you going to do this weekend?

I am going to see how I can help my housemate and play some board games with her in the garden.

We have been loving playing snakes and ladders and chess recently.

Remember, if you have any problems you can email me on our year 2 email address. Remember to work on your challenges. The weekend is a great time to read and get some fresh air. Enjoy!

Miss Pylypiak-Clancy 😊
